

Tommaso Pucci – Meyer Children Hospital - Florence

The "Mattone Internazionale" Project

The National Health Plan: Challenges

Harmonise the national health system in line with the principles of the European Union.

Strengthen the cooperation at EU level in key sectors where there is an EU added value.

Ensure greater understanding of health at EU and international level.

Dedicate major attention to health affairs.

General Objective of the Mattone Internazionale Project

“Bringing the health system and policies of the Italian regions in Europe and Europe in the health systems of the Italian Regions”

The main strategies (1)

Stimulate COOPERATION and PARTNERSHIPS working on health-related issues

European Union

Council of Europe

Organisation for Economic
Cooperation and Development
(OECD)

World Health Organization

The main strategies (2)

To promote the implementation of EU Law, international framework conventions, programmes and recommendations in the field of Health.

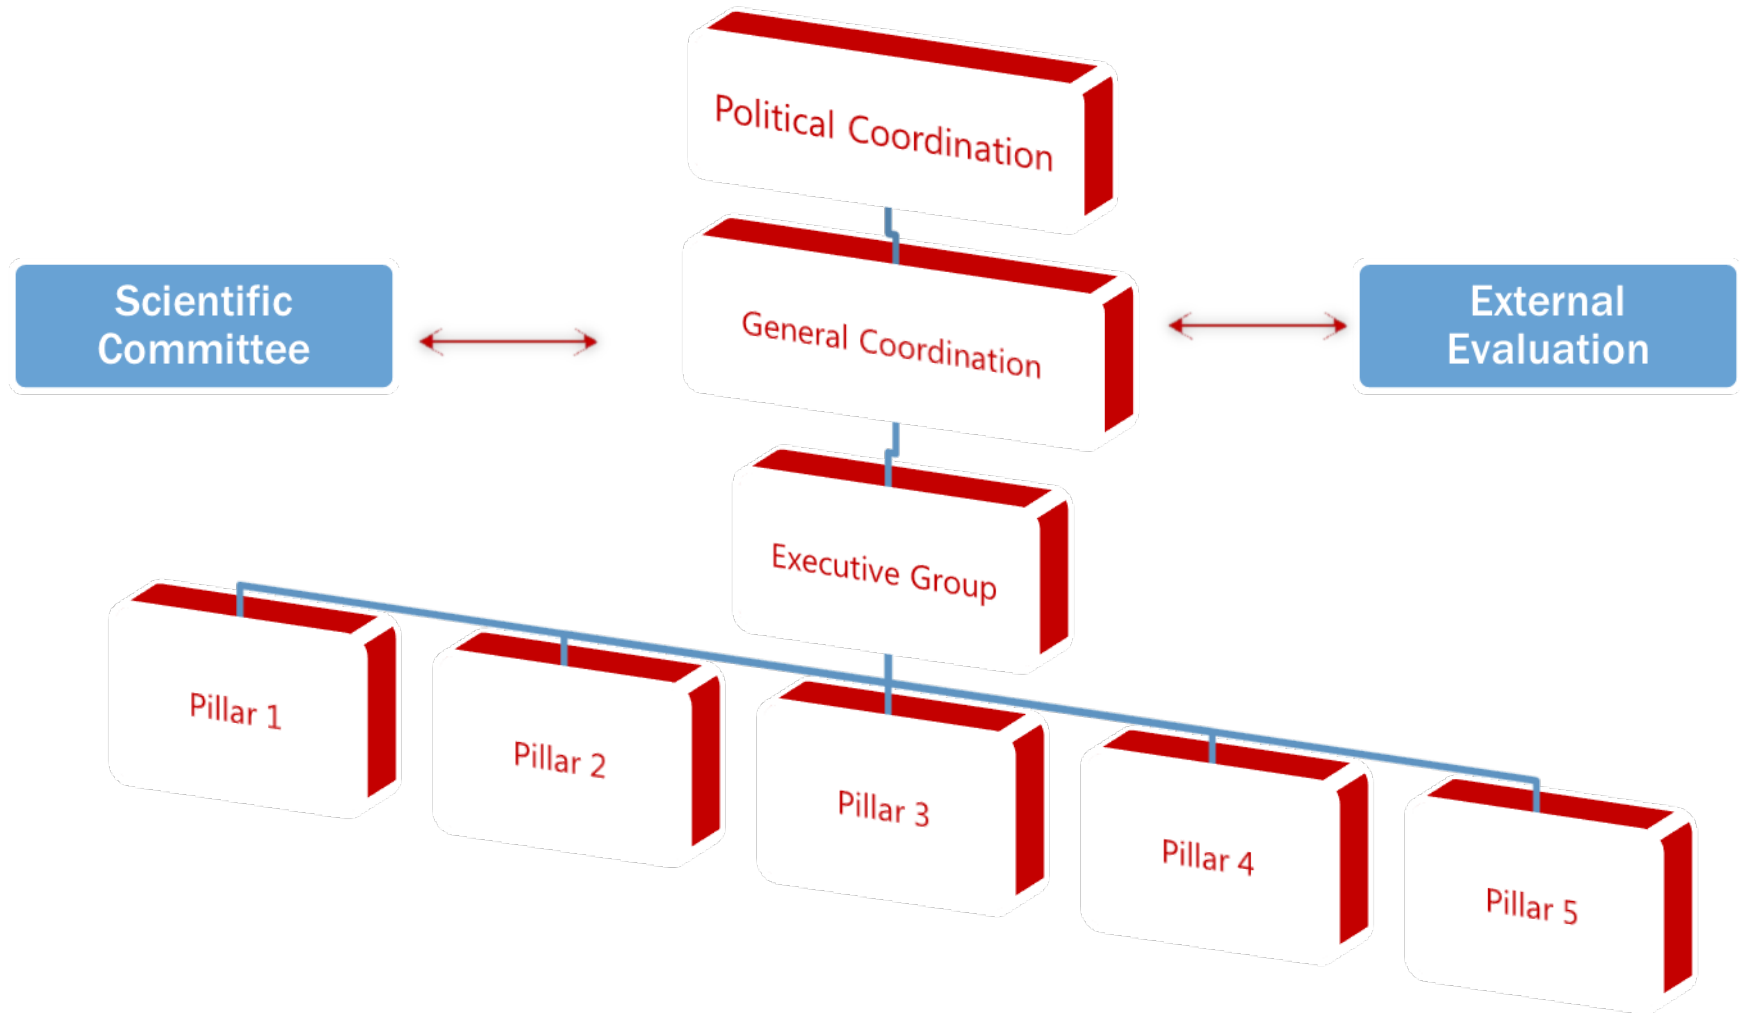

Tasks

Political Coordination (PC): it defines the general and strategic guidelines of the project.

General Coordination/Steering Committee: it translates the guidelines and strategies given by the PC into deliverables/outcomes and liaises with the "State-Regions Conference" for the exchange of information.

Executive Group: under the supervision of the Steering Committee, it promotes and executes the activities foreseen by the project.

Organisational Chart

5 Pillars

1. National Training Programme
2. Database
3. Communication and Information
4. Local Training Programme
5. Internationalisation of the regional health systems

Expected Outcomes

To overcome fragmentation

To coordinate and share inputs

To strengthen the Italian Health System

To improve the skills of human resources
